

PROJECT PROPOSAL COMENIUS MULTILATERAL PROJECT 2012

PROMOTING HEALTHY RELATIONSHIP FROM A GENDER-BASED APPROACH	
Programme	Lifelong Learning Programme
Action	Comenius Multilateral Projects
Duration	24 months
Potential partners	<ul style="list-style-type: none">- Public authorities with competences in educational issues- NGOs with previous experience in preventing/dealing with violence against women and/or developing educational programmes- Primary Education Schools
Brief definition	<p>The Regional Government of Murcia is developing different action for preventing gender-based violence in Secondary Education Schools, thanks to different regional and EU funded projects. Nevertheless, promoting prevention issues in early educational stages (i.e, Primary Schools) is required, although we can not deal with those topics so directly. In these learning and pedagogical context, in which the socialization process begins, fostering peer relationships based on respect, gender-equality and non-stereotyped self-development is the best way to prevent unhealthy future behaviours.</p> <p>Considering those ideas, learning materials will be developed within the framework of this CMP. Since having good command of other European languages and ICT immersion are mainstreaming competences in the LLP, those materials where highly based on ICT. Implementing the project in bilingual primary schools will also add value to the project.</p>
Aims	<p>The aims of the project are:</p> <ul style="list-style-type: none">• To develop ICTs-based learning materials to foster a self-concept incompatible with any kind of violence.• To improve, both in students and teachers, skills that allow them to solve conflicts from a gender-equality approach• To foster a free self-development, reducing the impact of gender roles and stereotypes on how children interact with people around them.• To promote digital competences in children, using ICTs-based pedagogical materials in the classroom.• To improve European languages skills, implementing the learning materials in bilingual school, as a pilot experience.
Budget	Maximum of 300.000 EURO
